

## MasterBatemans Bay HHH

*Where sobriety in moderation is tolerated*

Run Number: 179 May 2021

Hair: Lost Rooster

Technical Advice: Rooster Booster

Weather: Autumnal

Afters: Brumbies won. Late.

Score: .69 for run 10 for walk

Well, it looked a bit like this from the celestial scanner.

I make no comment about Dangles as he was not there, nor about any other person who may resemble this. The run appears to have been a decidedly non Pearl like 6.3 km or so and taken some people over an hour to complete.

The Wankers however, led possibly by Babbling on a flying visit to the region, wandered to the beat of the own drum (in a non warlike way)

Saturday Afternoon

Naturally **Winnie and Energizer** went straight to the drink stop. In a bit of a coup, they managed to make the ten steps from the couch to the verandah without spilling a drop.

For others, it did get a bit dangerous there for a while.

## The Egalitarian Hash

*Trash Volume: A gentle hummmm*

And this is not a comment about any person who may or may not have attended as I don't think we have any runners or walkers called Cliff. Unless they dropped over while I was otherwise engaged.

Some said it was an arsehole of a run.

But perhaps I digress. What happened?

Going Downhill Fast

Well, it seems there were a few turned up perhaps out of curiosity. After the usual faff at the start and a bit of chalk talk from the hair/s

the pack sorta meandered off down the hill.

(I have to retune the bloody drone but I think that is what happened. In a welcome return to form the **GeeEmm** (Haemorrhoid to some) launched himself on the runners trail. A few other strung out behind (see pic for other behinds) including **Too Keen**, **Black Dog**, **CountHerFeet** and **Gobbles**. **GreenFinger** brung up the rear.

The walkers took a leisurely and conversational stroll. **Infallible**, **Lost Rooster**, **Bunz** and **Babbling** do walking and talking in some style but without any outward effort. And they did make it to the drink stop.

So did a few others although not without a minor amount of confusion, even slight misdirection, dare one say?

Others strolled along in the own little world communing and soliloquising on the beauty around them

Or just putting one foot in front of the other.

There appears to have been a circle and some charges and singing and former RA, Hash Cash and GeeEmm and Mighty Aphrodite all calling in to the circle from remote locations.

It was noisy but waddya xpect with **BlackDog** controlling the phone and the GeeEmm and RA of such deep experience.

I think **Gobbles** mighta been rooted. Or maybe he just spat the dummy when **BlackDog** won the shield. It was all getting a big vague in transmission and the Brumbies carpark was noisy, but I think the others could have included **Greenfinger** for going down on **CountHerFeet Babbles** for shortest run in history (last 10 steps to drink stop).

**CountHerFeet** for being in shock (see above).

MBH3

**Winnie** and **Energizer** for just being drink stop sluts (perennial charge). And swear I could hear the faint strains of the birthday song for **GreenFinger**. Then a spirited rendition of the MBH3 anthem, the tune for which also featured at the recent Anzac Day ceremonies (although with modified words).

At about this time the drone went offline possibly because the pack declared the circle wallaby ted's brother and the proliferation of red wine obscured any further sensible transmission.

In the meantime, at a location far far away **Mighty Aphrodite** was just horsing around.

Em tasol tumas.
