

## MasterBatemans Bay HHH

## The Egalitarian Hash

*Where sobriety in moderation is tolerated*

*Trash Volume: Loud, long and off pitch.*

**Run Number:** 233 Jan 2026

**Hair:** Dangles

**Weather:** Patchy. See more below

**Afters:** Head Office of the Congo Cultural Collective (aka Dangles' shack of great hysterical significant).

**Score:** 2.69

Due to road closures arising from a dispute between the council and a local land baron, out of date mapping and quite possibly some topographical agnosia, even getting to the shack was a bit of a challenge for some but by a few minutes to starting time pretty much all the diverse pack ws milling around the Congo Cultural Collective HQ in their hot weather singlets ready for the off.

**Feels Longer** dropped in very visibly from the Sunday Bike Hash. **Just Tamanna** flew in from Melbourne for her third hash and **Fluid Movement** and **Pink Bitch** lobbied for the weekend from the Central Coast Collectivists. The pack stood around

and listened intently to the hair's instructions

From **Dangles** at his coherent best

then, right on the dot of four o'clock .... the southerly came in, the temperature descended and it pissed down. Small hail and enough rain to obliterate the trail marks within 150 m.

**FishFinger** and **Fluid Movement** were not deterred and disappeared into the gloom as if they had a sixth sense about the route of the trail. So did **PB** who also thoughtfully added some navigation aids at critical junctions to assist those like **Two Fathers** who had run back for rain gear and now shared the back of the indistinct trail through the sand quarry with **Just Tamanna** and **Mighty Aphrodite** as they meandered merrily on the loop that took them back to Congo Road and a sharp right to proceed in generally southerly direction up the hill towards the Dreaming Track and Flea's house as the runners suddenly appeared from astern followed doggedly by **Infallible**, **Feels Longer** and I forget (that is not a hash name). Thid led to a precipitous staircase to the beach, with the wind and a bit more rain picking up

Round Fle corner and down the worlds longest d

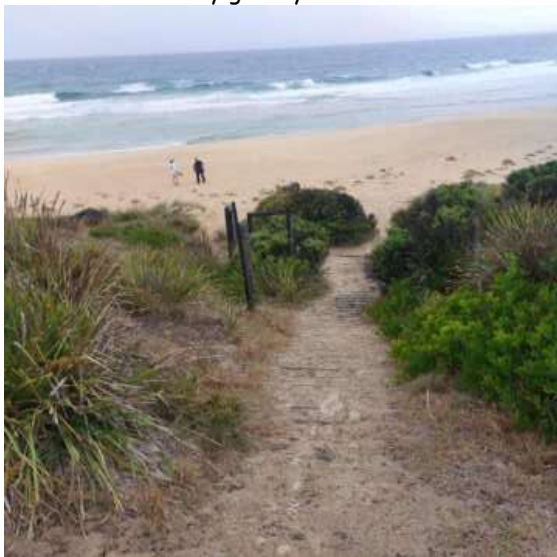

And almost perilous staircase and track

To

The beach and very gloomy sea

before turning north and doggedly trekking like Amundsen on the way to the pole

Before spying a handy little exit into the scrub which led on and up and into the picturesquely and normally almost uninhabited campground,

which by coincidence contains one the most extravagant camp kitchen and dunny structures in the National Park system and, Lo and behold, makes for a very handy almost weather proof DRINK STOP.

Where coincidentally the pack had grown to include **Pugwash** and **Sticky, Gobbles and CountHerFeet**, the barefoot and tanned **Haemorrhoid** and assorted other short cutters.

Before heading back to Culture Central for a review of the afternoon's frolics.

**Mighty Aphrodite** passed on the Rooted and Routed Award to the tanned and shoeless **Haemorrhoid** for reasons which if stated were not recorded.

**The RA** paid a small price for the timing and amount of rain. (Well it was only a small storm)

Several returnees including **Just Tamanna**, **Feels Longer**, **Pink Bitch** were welcomed back and prived no adequate reasons for their absence (ackshully **Feels Longer** may have been a MBH# virgin I dunno).

**Just Tammana** being on her third appearance was awarded a name

Henceforth and going forward on her hash journey she will be known as **Warrior Princess**.

The circle was wallaby ted's brother again and food and other stuff happened. There will be no further comment but perhaps 3000 words of conjecture.
